MASONS BAN POLITICS

Washington, D. C. May 11.—Master Masons from all parts of the country last night were advised to keep Masonry out of politics at a mass meeting and concert held in Continental Memorial hall. Senator Townsend, of Michigan, told his hearers that he had been receiving letters from Masons asking him to support Masons for political jobs.

William G. McAdoo, former Secretary of the Treasury, also asserted that the death knell of Masonry would be sounded if politics was ever injected into it.

"It is a mistake to put Masonry on that ground," declared Senator Townsend. "It should never be used as a tool in the political arena. I believe in Masonry because of what it stands for. It need make no apology. In this day, as in all days, our country needs Free Masonry.

Amidst thunderous applause, Senator Townsend declared that Masonry had helped to shape the destiny of the world from the beginning of Masonry, and that it is the hope of the world today. He called upon the membership of the National League of Masonic clubs, as units in the oldest fraternal organization in the world, to keep Masonry clear of politics.

Former Secretary McAdoo, analyzing world conditions, painted a picture of nations suffering from excessive taxation, and declared that taxes in all lands would soon become unbearable unless some intelligent plan was evolved for disarmament.

FREQUENT DATA ON LIVING COSTS

New Plan to be Help In Wage Adjustments

TO COLLABORATE

Hoover to Join With Davis in Securing and Publishing Statistics—To be Used as Index

Washington, May 11.—Arrangements were made today to have the Department of Commerce co-operate with the Department of Labor in getting out figures on the cost of living. It is expected that the aid given by the Department of Commerce will make possible the publication of findings several times a year, instead of twice a year, as at present.

Figures covering all phases of the cost of living problem, from the standpoint of the substantial mechanic, have been issued in the past by the Department of Labor in December and June. Figures on the cost of foods have been put out monthly Lately, it has been contended by those interested in the cost of living, as it relates to pending industrial problems, that the semiannual statement on the cost of living as a whole is not sufficiently fresh when released to be a reliable guide, in wage disputes, and that the monthly reports on food costs are not sufficient.

To meet the need for complete figures, compiled so quickly as to be pertinent to current conditions, it was suggested that the Census Bureau, in the Department of Commerce, be used to supplement the work done by the Bureau of Statistics of the Department of Labor, which, under Ethelbert Stewart, has been compiling the figures. Secretary Hoover, of the Department of Commerce, was strongly in favor of such a plan, and it was brought to the attention of the President, who approved.

Today the President said that the Department of Labor has men to do the work, and the Department of Commerce has resources to help do it quickly, so that seemed like good teamwork to link the two and get reports on the cost of living quickly. He did not go into details. Secretary Davis said after the Cabinet meeting that the work would continue to be done in his department and that the details of the co-operatio with the Department of Commerce would be worked out tomorrow at a conference between himself and Secretary Hoover. It is reported, however, that the findings of facts will be given the public by Secretary Hoover.

It is expected, from what the President said, that the field force of the Department of Labor will continue to gather the data, aided in some aspects of the work by agents of the Census Bureau, and that the compilation and analysis of the data will be made by the Census Bureau. This may work out in such a way that the energies of the force in the Labor Department will be concentrated almost constantly on gathering data, and the Census Bureau will be used to whip the data into the shape of conclusions, at intervals of a month or so, instead of the conclusions coming out twice a year.

If that result can be obtained officials high in the Administration believe that a long step will have been taken toward settlement of wage problems so far as those problems are caused by differences as to the fluctuations in the cost of living If an official statement of the cost of living to the average workingman's family comes out once a month, or once eevry two months, it must be taken by all parties in a wage controversy, it is believed, as a reliable index. The charge of obsolescence cannot lie against official living cost statements made with that frequency, in the opinion of officials.

Secretary Hoover, who has been interested in bringing about the arrangement, gave out a statement yesterday afternoon in which he said

"The arrangement to combine the materials and staff of the Census and the portion of the Statistical Division of the Department of Labor on prices and cost of living is with the view to securing economy and to enable the more frequent determination of changes in living costs than is now possible by the Labor Department, who are unable to make the determination more than twice a year.

"The rapidly moving readjustments make the figures obsolete before they can be brought out by the present equipment of the Labor Department and it is our purpose to secure data oftener and issue it more promptly by this action."

REICHSTAG ACCEPTS ALLIED TERMS

German Parliament By Vote of 221 to 175 Favors Yielding

CABINET PROMISES

Dr. Wirth Succeeds in Forming Ministry Regarded as Makeshift—Must do Utmost

Berlin, May 11.—Germany has accepted the Allied ultimatum.

The Reichstag, by a vote of 221 to 175, yielded last night to the final demands of the Allied powers, and, in so doing, agreed to fulfill the terms of the Treaty of Versailles "to the capacity" of the nation to do so.

Dr. Wirth, the Centrist leader, finally succeeded in forming a coalition Cabinet, composed of Centrists, Majority Socialists and Democrats, which confronted by grave necessity, speedily decided that acceptance of the ultimatum was the only course.

In making this announcement to the Reichstag the new Chancellor asked for an immediate decision by that body, and in the voting which followed the Government was sustained.

The Allied ultimatum required a definite reply, based on "Yes" or "No." No conditional reply would be entertained and the ultimatum was formulated to expire on the night of May 12.

The total sum which Germany is called upon to pay is 6,750,000,000 pounds; disarmament must be carried out by Germany (in accordance with the provisions of the treaty, and the trial of war criminals must be put into effect. Numerous other important terms in which Germany has been in default will be enforced.

Noncompliance with the Allied ultimatum would have subjected Germany to the occupation by the Allies of the Ruhr Valley and whatever other military and naval measures were deemed advisable.

In his speech in the Reichstag today Dr. Werth said:

"Our task in this grave hour is to obtain the decision of the Reichstag with regard to the ultimatum of the Allied governments. In the protracted detailed negotiations you have formed an opinion on the contents and significance of the ultimatum. In view of the termination of the time limit I must ask you to express your opinion by an immediate decision. There is no possibility for us other than acceptance or rejection. The victors have so decided.

Distributing the Spoils.

The office seekers are thick and apparently innumerable on the White House door mat. The federal plums are falling and "the boys" who were told during the last campaign by Mr. Will Hays "to get the money" are scampering in eager expectancy under the richly laden tree.

Mr. Harding's record of federal appointments is so far none too good. He has placed his pre-convention campaign manager in his cabinet as Attorney General of the United States in spite of his murky career as a politician and his absurd lack of career as a lawyer. He has made his campaign manager Postmaster General of the United States and in doing it has turned over the one department of the government that presents the most opportunities for political spoils to the cleverest Mark Hanna of the day. He has taken a country doctor from his own home town, made him a Brigadier General and set him not only over the health destinies of the White House but apparently over those of the nation. He has made an obscure man who happened to be his host on some trips to Texas Director of the Mint. He has put in as Comptroller of the Currency a small and unheard of banker from his own local bank in Marion, Ohio. He has but the other day named the Republican National Committeeman from Colorado first assistant Postmaster General. And he has only got ten a good start. Given time and a little encouragement from the proper sources and doubtless all reliable party henchmen, from the flamboyant editor and modern Warwick who occupied the spare room over the "front porch" to the brilliant Kansas artist who drew the famous "Immaculate Conception" cartoon, will all be taken care of by the President.

With all of which, we presume, mere Democrats and other citizens are not to be concerned. It's a family affair with the Republicans and if it suits them it will have to suit the rest of us, at least until 1924.

There is one phase, however, of his division of the spoils upon which we mean to give our friends some advice, whether they take it or not. They had better keep their hands off the postoffice department. In March, 1917, the President of the United States, a Democrat issued an order that took postmasterships out of politics. He decreed that all post masterships of the higher grade to be appointed by the President should be named after competitive non-partisan civil service examinations. The records show that of 1,560 appointments made by President Wilson after issuing the order, 1,454 went to men whose names appeared in the first place on the civil service lists; and the records further show that of 2,103 postmasters appointed altogether by a Democratic President, 1,012 were Democrats, 907 were Republicans, 32 were independents, 10 were Prohibitionists, 3 were Socialists and 129 had no political affiliations. Any attempt upon the part of Mr. Harding or Mr. Hays to return to the old system of spoils in the distribution of postoffices will be a frank notice to all independent voters that the old slogan of "To the Victors belong the Spoils" is to be the motto of the new Administration all the way down the line from the British Ambassadorship to the postmaster at Pohunk.

(Communicated)

Last week at Newport News, Mrs. Harry Lockwood, president of the Arlington County Club, was unanimously elected President of the Federated Clubs of Virginia. She is exceptionally well qualified for the work, knowing not only state conditions, but having held in Washington the position of director of headquarters of the General Federation of Women's Clubs. In that position she became familiar with the club work of every state in the union, and not only state but national consciousness was further developed. In every prominent group of women the General Federation of Women's Club is always among the foremost, and constantly has Mrs. Lockwood been called upon to represent our national organization, and she has always done so with ability.

Mary Morris Hall Lockwood comes from French and English ancestors and is descended from three colonial governors, Pennsylvania, Maryland and Virginia. She was educated in Philadelphia and in the Woman's College of Charlotte, North Carolina, and she believes thoroughly in furthering the educational work in Virginia, for she desires it to take a higher rank than 45 among the other states. She suggested to her newly elected board that each club appoint a special committee to study the educational conditions of its own community, these reports to be referred to the State Chairman of Education, and this work will be taken up by the council to be held in Pulaski in October, in connection with the schools. Mrs. Lockwood is deeply interested in the work of the county health officer of the state, and is anxious that the Board of Supervisors should govern from a point of good business, good schools, and good health. While some communities are fortunate in these respects, there are localities that are not up to the highest standard and she is planning a conservative, constructive policy.

Mrs. Lockwood is personally most attractive. She possesses ability, strength, poise and graciousness and with her wide experience the women of Virginia welcome her most enthusiastically to the office of the Presidency, and wish her both pleasure and prosperity in her work.

Director for Virginia General Federation Women's Clubs.

TAFT'S PHYSICIAN TELLS HOW TO LIVE 100 YEARS

Chicago, May 11.—"Folks die from lack of work. They get rusty. They spend gloatingly on how I've got a swell job; a man's only work four hours a day. That's why the world is at sixes, 7:30 sevens today and that's why they peter out at 40, 45 and 50. Be on the job every minute, and then you'll be happy, and happiness is the mysterious tonic that means first place in the century marathon race."

That's what Dr. Charles E. Baker, health adviser to Mr. Taft in the White House and now a wealthy man, told Rotary Club members today, in describing his system on "How to live 100 years."

"Adopt and maintain a simple childlike attitude of condence and trust in God," he said. "Get the kindness habit. Accept cheerfully the place in life that is yours. Drink eight or ten glasses of water a day—between meals. Get into the habit of daily exercise. If you have plenty of blood, a cold bath should follow your exercise, otherwise only a cool bath is advisable.

SPORTS

An interesting and a meeting of importance of the Triangle Sport Club was held at the home of Julian Davis last night. The meeting was called to order by L. E. Roadhouse, our coach and president.

Among the important measures brought up and passed was the reelection of officers. The officers elected for the year are: L. E. Roadhouse, president; Julian Davis, treasurer; Raymond Eaton, secretary; Horace Howard, manager; R. Wolford, official score keeper and Robert Whitton, reporter. Vernon Edwards was chosen captain to fill the vacancy caused by the resignation of Roy Hunt. Besides an interesting talk by our president, new members were received, and our club pin distributed.

The business having been transacted, refreshments were served by Mrs. Davis, which were greatly enjoyed. The meeting was then adjourned until next Tuesday.

THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

How you can measure tire value in 1921 —

"Any U. S. Tire is a universal full-money's worth"

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a *standard* brand as the only *rational economy*.

* * *

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no *forced* selling of any U. S. brand—no shipping of tires from one part of the country to another to "find a market."

* * *

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

"The different tire views that come out in a chance talk."

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a *fresh, live* tire of *current* production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of *equal* quality, buying convenience and price for *everybody*.

SHIPYARD WORKER SAYS CHSCO-VIM IS A GREAT MEDICINE

"I rest again all night through and my appetite is good too since taking Chsco-Vim. It is surely a great medicine. For a long time I was all run-down and one cold followed another until I was discouraged. I certainly feel grateful to both Chsco-Vin and those who insist that I give it a trial. If you have gone through what I did get a bottle and try it." Edward F. Moore, 811 Cherry Street., Camden, N. J. INTEREST DUE MAY 15 ON SECOND LIBERTYS

Interest amounting to more than $1,000,000 will be payable May 15 to holders of Liberty Bonds of the second issue bought through Virginia banks and trust companies. The total amount of bonds of this issue subscribed in this state was $59,850,000 there being over 84,000 subscriptions. The per capita subscription was $23.73.

The four per cent bonds of the First and Second Liberty Loans which were issued in temporary form have no coupons attached for interest payable after December 15, 1919, for the first loan and November 15, 1919, for the second loan. Therefore, holders of these bonds are urged to present them to their local banks which will forward them to the Federal Reserve Bank of Richmond for conversion into permanent four and one quarter per cent bonds with coupons attached covering interest from the above dates to the maturity of the bonds.

In this federal reserve district the interest payable May 15 on the Second Liberty Loan will be in excess of $4,000,000, and a Treasury Department statement suggests that as much of this money as practicable be reinvested in government savings securities. In the district, the records show, the total subscription to the Second Liberty Loan was $201,212,500, there having been 454,002 individual subscriptions. The per capita subscription, that is, the average amount bought by every person in the district, was $22.03.

GAME ROOSTER NEARLY COSTS WOMAN LIFE

Georgetown, Del., May 11.—Spurred by a fighting rooster, Mrs Frank King, of Georgetown, received a punctured artery in her wrist and would have bled to death had it not been for prompt work of physicians in tying up the artery and sewing it together.

Mrs. King was working in her poultry yard when one of the roosters flew at her face with his spurs extended. Several times he drove the sharp spurs in her face and narrowly missing her eyes.

Screaming, the woman ran for the gate, but before she could reach it the rooster made a last lunge and struck in the wrist, puncturing the artery. The womans scream brought help, and quick work by physicians saved her life.

REICHSTAG ACCEPTS ALLIED TERMS
(Continued from page one)

"Acceptance means that we declare our readiness to bear the heavy financial burdens demanded year by year. Refusal would, however, mean surrendering the basis of our entire industrial activities and as a consequence dismemberment of our economic body, already so greatly weakened, and the shackling of our entire industrial life.

"For these reasons the Government accepts the ultimatum. We know that acceptance by reason of the place Germany will occupy in the economy of the world, will entail the gravest consequences. The responsibility for this falls on the Allies.

"But there is one point concerning which there must be no obscurity. It would be useless to say 'yes' without the resolution to do our utmost to meet the obligations imposed upon us. By acceptance, we believe, we will remove the imminent threats of occupation of the Ruhr. The fear often expressed that occupation will take place in any case, whether we sign or not, is not supported by any passage in the ultimatum.

"There is no need for me to show why, in taking the decision, we ought to turn our eyes to Upper Silesia. In that respect we have firm confidence in the results of the plebiscite.

"The treaty, which casts a heavy burden upon us, entails for the Allied governments sacred duties, as the British Premier himself expressly acknowledged recently.

"Ladies and gentlemen, the new Government, after reflection, advises you in all confidence to accept the ultimatum."

The new Cabinet is generally regarded as a makeshift, largely unrepresentative, but good enough to accept the Entente ultimatum, and thus avoid a French advance into the Ruhr.

While the Cabinet obtained a comfortable majority in the Reichstag, it has the undivided support of only the Majority Socialists and Clericals. The members of the other parties, it is declared, have given its support as a makeshift and are not pledged to give it parliamentary support. A leading Democratic member of the Reichstag said today.

"The Cabinet cannot last, as it is not on a broad enough basis to carry out the myriad of financial and economic problems involved in German acceptance of the reparations settlement. We Democrats have loaned Schiffer and Gessler to the Cabinet, reserving to ourselves the right to withdraw them later unless the Cabinet is amplified to include the German People's party."

Dr. Wirth, the Chancellor, is unfavorably regarded by the industrialists and banking interests because he is closely associated politically with Mathias Erzberger, his predecessor as Finance Minister, who advocated a raid on capital, rather than indirect taxes, as a means of meeting Germany's pressing financial needs.

MATERNITY HOSPITALS

For the suffering womanhood of the world the Salvation Army has established a chain of Maternity Hospitals, where the girls, betrayed, deserted, without money, home and friends, may find a refuge and medical attention. While here, every effort is put forth toward their regeneration—the first step in which is the future care of their babies. When physically fit to go out, they are sent out to situations with their babies, which they are urged to keep and support, or they are sent back to their parents and friends.

During the past year 7103 were received into these homes of whom 6408, or 90 per cent., returned to self sustaining lives of respectability.

Another feature of the Maternity Hospital is that section set apart for the respectable woman of moderate circumstances who may here obtain a room and the attention and nursing during her confinement at a low charge, that she could not possibly afford in the regular hospitals.

The Salvation Army has also created a little club in each Rescue Home and Maternity Hospital by means of which it is able to keep in touch with the girls who have found a haven in these hospitals in their time of great trouble. This is called the 'Out-of-Love-Circle' and its members are the girls whose little nameless babies first saw light of day in a Salvation Army Maternity Hospital.

They meet once a month in each of the 23 cities in this country in which there is located a Salvation Army Rescue Home for women.

All employed in positions, most of which the Army has secured for them, and all making good; they come back to their meetings out of love, they feel for what was done for them, and thus try to show it by helping the inmates of the homes toward getting new hope for the future.

Do you realize that this increase in mileage has been accomplished without extra cost to the user—that Goodyear Tires cost less today than in 1910?

We stock and sell all sizes of Goodyear Tires, Tubes and Accessories, for we know that they cost no more than you are asked to pay for goods of less merit.
Come to our Goodyear Service Station and let us show you how to reduce the cost of tire mileage.
